Forecast for Thursday 19 Oct 2023

Weather: Most of the morning will be dry although some light and patchy rain edging northwards later on. The afternoon and evening will be cloudy with rain, this most persistent across Easter Ross, Caithness and eastern Sutherland. Some drier spells expected along the west coast. A very windy day with notable wind chill.

Chance of cloud-free hill tops above 800m: 50%, best chance along the west coast

Low cloud and visibility: Starting off very good but extensive low cloud down to 500 to 800 metres developing across the east of the area by afternoon. Cloud much more broken along the west coast with a greater chance of clearer summits.

Met Office Aberdeen Meteorologist's View

Very stormy on the summits with gusts of 80 to 100 mph expected and a high risk of being blown over. Drenching conditions developing in rain along with notable wind chill.

Forecast for Friday 20 Oct 2023

Weather: A lot of cloud for much of the day with outbreaks of rain, this persistent across the east at first. Drier, colder and somewhat clearer weather will edge south through the afternoon and evening. Some snow likely above 800 metres as it turns colder. Remaining stormy on the tops.

Maximum wind: Easterly 70 to 80 mph on the summits, moderating towards evening

Chance of cloud-free hill tops above 800m: 50%, best chance in the afternoon and evening

Low cloud and visibility: Poor in widespread low cloud down to 500 to 800 metres at first, some breaks towards the west coast. Much improved visibility developing through the afternoon as cloud lifts and breaks to patches around 850 metres from the north

Temperature: **Glens:** Plus 4 rising to 7 Celsius
At 800m: Plus 4 Celsius falling to 1 Celsius
Freezing level: Above summits falling to 900 metres
